

Name: Calvin Tham

NOTE:

You need java version 1.7 You'll need to open up cmd/terminal and run the java classes by going to the following folders and typing:

3

 "java WordSearch"

backend4

 "java FamilyTreeTester"

backend5

 "java HighScoreRadixSort"

backend6

 "java NumMovesGen"

For the bonusQuestion folder, just
Run the jar file.

Or alternatively, go to "bonusQuestion/sourceCode" and do
"java Main"
